DMU Cyber Week 2021

- When is it?
- Whats on?
- Where to register?

Bellingcat

- "Bellingcat is an independent international collective of researchers, investigators and citizen journalists using open source and social media investigation to probe a variety of subjects"
- 11th March, 6-7pm in usual session time.
- Here on discord. Event is posted on the DMU Hackers FB page

We want to hear from you!

What is XSS?

- OWASP top 10 vulnerability
- Reflected XSS, where the malicious script comes from the current HTTP request.
- Stored XSS, where the malicious script comes from the website's database.
- DOM-based XSS, where the vulnerability exists in client-side code rather than server-side code.
